Group Class Launch Kit

From certified to your first full group class, step by step.

What's in your launch kit

- **Parent info night script**
- **Free trial class plan and script**
- **Flyer and social post templates**
- **Enrollment follow-up email templates**
- **Two live group coaching calls in your first semester**

Everything you need to fill your first group class, ready to use the day you are certified on Book 1.

Your first group class in four weeks

- **Week 1: Invite families with your flyer and posts**
- **Week 2: Host a parent info night**
- **Week 3: Teach a free trial class**
- **Week 4: Enroll families and start your class**

At the parent info night, you show families how My Music Box works: children take the music in through the ear, the body, and the voice first, then connect those abilities to the score and the keyboard.

The trial class lets children sing first, then play, so parents see the joy for themselves. Your follow-up emails turn that first visit into an enrolled class of 4 to 8.

On the live coaching calls, you bring your questions and we help you plan your next group.

Included with your Book 1 training as a founding teacher. Start with 4 students and grow from there.
